I'm not too happy about this re-releases from Music On Vinyl. I've got the Dangerous LP, and the quality isn't that great. If you look closely u can see creases on the cover of the LP. I also read somewhere the sound is very shrill and inbetween songs u hear a lot of noise. So only buy it if ur really desperate for a BOTDF vinyl.

I don't have any releases from MOV and I don't have opinion about this LPs. Unfortunately, first press of BOTDF and HIStory are so expensive :(:(
