ML Publishing announces the release of a new book devoted to the King of Pop: Michael Jackson's One More Chance: One Week In Vegas.

The book traces the making of the last short film made in his lifetime by the King of Pop.

One More Chance was shot in November 2003 in Las Vegas and then stood in the vaults of the star for many years.

Michael Jackson spent 14 days in the city to work on this video as well as other film projects and ideas that would direct his career towards horizons unpublished.

This book by photographer Ian Barkley, Michael's longtime friend, recalls his stay in Las Vegas throughout more than 150 previously unpublished photographs.

Get an overview of the magical world of Michael Jackson, his outstanding talent, his artistic vision and a few moments of intimacy.

Release Date: February 14, 2011

Thank you for the news, Lari! :thankyou

I wonder if this book will include other pictures from the videoshooting than those that have been spread on the net some months ago.

I was wondering the same thing, but I'm trusting the "previously unpublished photographs" part.

Well, I think it's strange that there still isn't any cover of the book made public... I doubt that the Feb 14 release date will be true.
