In the Magazine section-I only see MJ fan related mags. What about People, LIFE, etc? Am I missing that area?

Thanks

We have added more than 1800 magazines there and yes Time, People etc... you have to click the link and search for magazines. Fan magazines are just a small part but we added many many more from all era and every country. You should see 16 magazine as first one but if you look closely there are 25 pages scrolling down the pages...
