

Kia ora from New Zealand

Posted by katienz - 2012/02/09 19:18

Hi everyone. I'm a MJ/J5/Jacksons/Janet collector here in New Zealand, who started in 1991. This month I have been starting to organize my collection properly and would love to have some discussions with other collectors about various items. I like to focus on official music releases from 1969 onwards, but do occasionally buy some merchandise if it's a nice item at the right price. Anyway if any of you ever plan to visit New Zealand, or would like to learn more about what I have in my collection, please PM me. Soon I hope to spend some time uploading some pictures of things I have that are not on this site so far.

L.O.V.E. Katie.
