How can I add an Item?
Posted by MJFan14 - 2013/06/09 14:02

_____

I have try to add a *PROMO* LP with no success. I choose the category, but it says "Error: You do not have permission to access the requested module". Please can someone tell me what to do. I have a collection and i want to add some items which are not presented on site. :dontknow

_____

Once you're logged, you have to go here:

http://www.mjjcollectors.com/index.php?option=com_content&view=article&id=106&Itemid=115

But there are some important things to know:

1) Select the right category of the items to add

2) Adding long and short description and very important: add Era, which is the means thru which collectors can find an item easily in search

3) Add a picture that must Not be over 500 kb, otherwise our server won't upload it (so a low resolution)

4) Double check, going to search or the right category, that item you want to add is not in the site yet. In fact ,we have only unique items here and avoid dupes.

If you need any help, you can Always contact us and we'll reply you..

Hi, I'm having the same exact issues. Trying to upload "BAD" Promotional Copy (CBS) Cassette Tape, in excellent (like new) condition. I continue to receive the same issue: "Error: You do not have permission to access the requested module." Please help! I would like to sell this tape and it would be great if it went to a collector.

_____

Also, please be sure we don't have this item on our site yet. As we add only unique items, So everytime, you need to add an item, you should check if it's already added by us or other members.

Thanks
