http://www.mjjcollectors.com/images/fbfiles/images/BAD25_Doc___Spike_Lee.jpg Hi there,
this weekend i got a mail from the official Michael Jackson store
that the long awaitable BAD25 Documentary made and told by Spike Lee, is out now on DVD and
Blu-Ray discs (2 different) - I had just ordered my copyes
and will hear if anyother had seen that it is out and get hands on it, and what you think about it...
:crazylol

For me personally it will be huge to see what really happen behind the camera of the music videos and
filming from the music studio rehearsals...

Just a shame that it isn't not limited or numbered for collectors, so far i know, better late than never it is
out now

The DVDs will only be avilabel from the off. MJ store, and can't not be find on other sales sites...
Thanx to the Jackson Family, Spike Lee and Sony for making this avilabel :bow
