Hi guys

I need someone to help me out, I have a copy of Thriller where the insert has Billie Jean spelled as such

However, the actual CD has it spelled as Billy

I simply want to know, is this rare? Does anyone know anything about this error etc.?

Cheers

Hi,

not we don't think it' rare as misspelling titles and words were pretty common in South American countries and Asia too. Also Thriller Mexican 12" single has Billy Jean misspelled on it. So it depends on your edition, country, color of vinyl and conditions to establish a value but it's not rare at all.
