

SUZIE KATAUAMA ARRANGEMENTS CD REAL OR FAKE?

Posted by Rhythmcontrol - 2015/12/17 14:21

Someone out of their mind is selling this cd on eBay for \$50,000 no kidding does anyone know if it's official? I don't see it listed anywhere else and doesn't seem official to me. I asked for pictures and the seller will not respond and will not send actual pictures of the inlay, disc, back etc.

Any information would be greatly appreciated

This is a Michael Jackson's site.

Honestly we don't even know who Suzie Katauama is.

Apparently this is MJ's rarest cd. The seller appears to promote it that way here are the two postings on eBay. One is more credible with a low price and one is at \$50,000 which is crazy

It has a Michael Jackson song called "Elizabeth"

Ahhhhh it must be a joke!

This song is on video and on audio totally free on youtube.

So unless he wants to attract curiosity, this cd may be worth no more than 50 dollars.

If one as 50,000 USD to spend, of course this would be the most stupid purchase ever.
