FOR SALE : Superb White T shirt Stage Worn and Signed as images show at sultan of brunei concert july 16 1996 in front of 60000 . Has michael typical tear down neck which he used to do when wearing beneath sequin tops etc , plus original make up staining around neck line . Nicely and clearly Signed in red felt and given to his guitarist after the event originally. Originally sold by Bonhams ( hard to consign to them without v good provenance ) as you can see from coa and original auction catalogue images .Also authenticated by Gotta Have Rock and Roll. Lots of Images of him performing in this can be seen on the net on you tube while doing " billie jean " <https://www.youtube.com/watch?v=DebiY34ICic> No holes etc in T shirt so in original condition after performing . When one sees the shirt in the flesh one can see a small piece of material protruding on the left side of neck line that also shows on image of him. So it photo matches. ( this is clearer in the "flesh " )  
Great Iconic Item !

I was asking for a picture of this signed worn shirt as we don't want people to add fake items for sale, so that's why we would need a picture.
