Record Store Day is an internationally celebrated day observed the third Saturday of April each year. Its purpose, as conceived by independent record store employee Chris Brown, is to celebrate the art of music[. The day brings together fans, artists, and the over 700 independently owned record stores in the United States, along with hundreds of independent record stores across the world.

RECORD STORE DAY RELEASES These are titles that are only being released for this day. These are true Record Store Day Exclusives.

A lot of these titles have limited runs. You may not get your hands on all the pieces you want. Your STORE may not get their hands on all the pieces they want. That's the nature of limited releases. But that's what makes them so exciting!
