

HIStory World Tour Program - different versions

Posted by MJSunshine - 2011/01/08 07:11

I noticed that I have two different HIStory Tour books. The problem is that I don't know which one is the 1996 one and which one is from 1997. Maybe someone knows more about it or remembers when he bought it?

Version A consists of 32 pages, Version B has 36.

Version B has the following four additional full-page pictures:

There also is a difference in the credits site:

Version A lists the whole MJJ Productions staff. The copyright says "1996 Michael Jackson".

Version B doesn't mention the MJJ Productions staff and so has more space to list the tour production staff. The copyright says "1996 Triumph International Inc." It also has two logos - of MTV and BetaFilm and a fan club information.

OK, I've got an answer to that and added it :)

The 1997 one has 4 more pages. I still find it interesting, especially the differences on the credits page.

I guess I have Version C then, lol. My Program has 32 pages, and the same credits site as version A. BUT I do also have all the 4 additional pages you posted. Hmm, I wonder if my version lacks some pages that are in version B... Interesting! :hmm

Really? :hmm

When you have 32 pages, but the additional 4 pages it means that 4 other pages must have been left out. Maybe we counted differently? I started to count with the front cover as page 1 and the back cover as page 32/36.

Ahaa! Yeah, I did count differently. Sorry, my bad :blush My version also has 36 pages, counting the back and front covers.

But it's still a little bit different from versions A & B, because the credits site is the same as on version A, even though it's got 36 pages.
