Panini Jackson Live *JL3 Dual Swatch* 2011 Official Trading Card (USA)

2011 Panini US official trading card Michael Jackson Live. It reads: 'The swatch within this card is from a Boyd Clopton design outfit which was worn by Michael Jackson in 1971 for publicity photos and live stage performances during a Jackson Five national tour'. These cards are part of a rare set called insert cards that are in a very limited series. This is even rarer because it contains 2 swatches of different colors.
