HIStory Advance Promotional & Informational Booklet (USA)

This 27 page 9"x12" booklet was exclusively provided to executives at Sony-Columbia to promote awareness of MJ's upcoming "HIStory" album. Â Has a gold cover with very thick high quality pages, and features early artwork for HIStoryÂ that reads "The King of Pop: Never Before in History..." Â Was written and published in early 1995, prior to the release of the album (this is obvious since it describes HIStory as containing "25 of his best hits and 5 new releases"). Â 1995 CBS/Epic. Most likely USA origin.
