ABC Promo 7" Single *Gold/Yellow Vinyl* (USA)

Yellow vinyl WLP.

Â Rare vinyl in yellow or gold color as many call it. Motown released it with a plain sleeve but after a few days they sent another version with a written sleeve, where they wrote more details on the re-release in gold following the success of the song in USA charts. This second version is more valuable, it's worth around 200\$.
